

# INSTANT HAND SANITISER

Uroxsys Instant Hand Sanitiser is based on the current World Health Organisation recommended formulation. It is an alcohol based clear hand sanitising solution which will kill most common bacteria and viruses on contact including Covid-19 when used as directed. The 5L pack can either be fitted with the pump dispenser supplied giving approximately 1400 doses, or decanted into smaller dispensers.

## PRODUCT FEATURES:

- Contains 80% ethanol
- MPI Approved C54

## USES:

Uroxsys Instant Hand Sanitiser is formulated to evaporate rapidly and leave hands dry and sanitised.

## DIRECTIONS FOR USE:

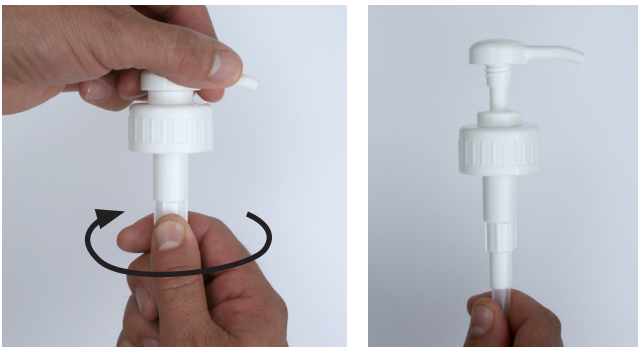

Apply a palmful on to dry hands, cover all surfaces of the hands. Rub hands together until hands are dry. Do not rinse. Keep away from fire or flame. For external use only.

**For C54 use:** Hands must be clean before the sanitiser is applied (this includes washing the hands where necessary) and its supply must be limited to a fixed, metered dispenser located a sufficient distance from the processing line to prevent product contamination.

After use, the hands need not be rinsed but must be dry before the operator returns to the processing line.

**SAFETY INFORMATION:** Refer to safety data sheet

**TIP:** Pump must be OPEN before placing into container for use. Hold top still while turning base anti-clockwise.

Container must remain upright after pump is fitted

**TO DECANT:**  
Hold handle low with spout high. Tip slowly to avoid spills.

This information is, to the best of our knowledge, true and accurate, but any recommendations or suggestions which may be made are without guarantee, since the conditions of use are beyond our control. Furthermore, nothing contained herein shall be construed as a recommendation to use any product in conflict with existing patents covering any material or its use.
